WE DESIRE

To say that we make the quality and artistic merit of our goods, rather than a cheap price, the chief attrac-tion to our stores. Those who are accustomed to deal with us know how well and advantageously we serve them. To those who have not yet made our acquaintance, we would but say, if you wish to obtain the best possible value and the absolutely correct furniture, examine our goods before you make a purchase. The certainty that the prices are right and the furniture likewise is one, if not the greatest secret of this Store's success.

CHAMBER SUITS

For a short time only and for the purpose of quickly disposing of a line, the agency of which we shall hereafter discontinue, we will offer some big money-saving values on chamber suits that are large, solid, massive and imposing-looking af-fairs. The worth and popularity of these suits is attested by the fact that we sold from two to three car loads of them every year; worthless goods don't sell in such quantities, hence when we say this sale de-serves your attention we simply quote money-saving facts. And here are a few of thera.

At \$35-A large dresser with 18 230 French Mirror, double top to dresser, base nearly four feet by two feet deep, with bonnet case, twesmall and two large grawers, handsomely carved head piece to dresser and to bedstead. Bead-stead is full four feet six luches wide by six feet four inches long. This suit sold readily at \$45.

At 840-An extra strong, extra large and extra finely carved bed room suit with a big bonnet case, the door of which is pleasingly carved, the space between which and the two lower small drawers ena be nicely sand for a decorative display of tollet accessories. This suit is in an antique oak finish, has a big French plate mirror and lots of drawer room. Our price has been low on it at

At 823-A suit well worth any man's money, even at \$34. A big. roomy bed, an 18x40 mirror, a and width, tusty carvings on headboard of dresser and stend. Our price has been \$31. Other suits at \$14, \$15 and \$18.

A COMBINATION CASE

Consists in the union of a book case, writing desk, closet or a number of drawers in one very ornamental and useful place of necessary furniture. It is designed to take the place of the old-fashioned secretary. It combines so many advantages, is so useful that people are now buying them quite freely. have reinforced our present stock with a lot of newly arrived ones, the plok of the market. The prices run \$14, \$15, \$18, \$20, \$23, up to \$50 Se many and so large a stock partly explains our growing sales.

FANCY ROCKERS

Up stairs and down stairs, in both stores, almost an army of them, new, frosh, bright with the magnetic attractions the talented designers have rockers almost irresistible to those wishing novel and pleasing forms and shapes in the new things in rockers. We have rockers by the hundreds to choose from. Oak, ma-ple, mshogany, birch and a host of wicker rockers contribute to diversify an extraordinary procession of very interesting rockers. Our store is a big depot of supply.

Passengers Robbed but Express Car Couldn't be Opened.

FORT SMITH, Ark., Nov. 14.—Train No. 2, south-bound, on the Missouri, Kansas and Texas road was held up and robbed at 10 o'clock last night at a little siding named Blackstone, five miles north of Muskogre. There were fifteen men in the gang, all unmasked. The switch was thrown and the train rus on to a track on which there were several box-cars.

An attempt was made to enter the express car, but it was unsuccessful The robbers finding themselves foiled in this, commenced robbing the passengers, who up to this time had been merely kept under guard by men sta-tioned at either door of each coach.

About \$260 in money and eight gold Nowski, the patron saint of the dead watches were secured. The robbers monarch. then withdrew. One of the train crew claims to have

recognized Bill Cook as one of the bandits. The fact that more money was not secured lay in the fact, that while the robbers were endeavoring to get intolthe express car the passengers disposed of much of their valua-bles. The scene of the hold-up is in the midst of the Cook rendezvous, all that country lying between the Arkansas and Verdigris rivers being particularly suited to the purpose of lawless bands. Almost the entire force of Marshal Grump is now up in that country and can go to the scene of the raid in a few hours if so ordered. He is as yet ignorant of the affair, however, the news not having reached here till 1 o'clock.

Every foot of ground along the route was occupied with spectators.

The greatest masses of people were gathered in front of the Kasan, St. Isane's and other churches, in front of which, previous to the starting of the procession, the clergy stood in their state robes. Three salutes of artillery announced the arrival of the procession at exactly 11 o'clock.

The thirteenth and most important section of the procession, and the one for which everybody was waiting with eager expectancy, was headed by the choirs of the cathedral of St. Isaac and of the convent of St. Alex-adder-Nowski. Following the choirs were the clergy, bearing lighted candles, and behind them came the czar's confessor, Father Yanichieff, holding the image of St. Alexander

Behind the image of the saint came the hearse drawn by eight horses. The tassels of the hearse were held by sixt-en generals in full mourning uniform. Sixty pages carrying lighted torches walked on either side of the

A PREMIUM EXPECTED.

Will Bring More Than Former Issue it is Thought.

WASHINGTON, Nov. 14. - Secretary Carlisle, late vesterday afternoou, issued his call for bids for \$30,000,000 5 per cent ten year bonds, interest to be paid in coin, which is interpreted to mean gold. The only material changes made in the present call from that issued January 14 last are the omission of the upset or minimum price, which would be accepted, and the notice that the proposals for the present issue must be scaled. It is confidently expected at the treasury department that an amount will be realized considerably in excess of that expectation is based on the fact that there are exceptionally large amounts of money now lying idle and seeking investment in the meany centers of the country, and upon the further fact that the February Issue is now quoted at \$118.50, or about 2 per cent the country." above the price which it would yield at 3 per cent. From the last issue there was realized \$58,660,917.63, and of this amount \$52,850,264.24 was in gold coin, \$5,510,420 in gold c rilli-cases and \$133.39 in other money which the sub-treasuries were comelled to take in making change. while these amounts were actually paid into the treasury in gold or its equivalent, a very considerable amount of gold was withdrawn from the sub-treasuries for the express purpose of using it, again in paying for the bonds. The exact amount thus withdrawn cannot be ascertained, but the best knowledge ob-tainable is that it approximated \$15-000,000 With a view of a more exact

ANOTHER VIEW.

Criticism of the Report of the Strike

CHICAGO, Nov. 14.-The Railway Age in its next issue will contain a reply to the report of the United States strike commissioners, addressed to those gentlemen. It says

"The errors in the report range all the way from the inaccurate quotations of comparatively trivial figures to false generalizations. There are many minor points in your report in which criticism and correction would be easy; as the remarkable economic calculation by which the commission calculates the loss incurred by hard times between em-ployer and employes; as in the casual estimate of the 850,000 and over railroad employes in the United States who might belong to one organization, and in other passages. It would be equally easy to pillory the cheap levity with which the commission treats the educational institutions and the esthetic and sanitary features of Pullman, But these things—errors of taste, or falseles in theory—will be apparent enough to the general readers. The curious accident that the misstatements of fact are all on the same side—all tending to throw discredit upon the corpora-tions and to increase the bitterness of the laboring classes against capital-is an accident from which one would prefer to draw no inference.

George IV, as prince of Wales, married the beautiful and fascinating widow, Mrs. Maria Ann Fitzherbert. The laste of that union could not ascend the throne, because his mother and father were married according to the Catholio rite, and the mother was a devout member of the Catholie church. Under these circumstances the son of this union was a menace to the future king's peace of mind. The upshot was that the son was brought to America, where he died at Omaha, at the age of 95 years. He had seven children, one of whom, the youngest male living is John S. Ord, of Santa Cruz, Cal., and whose second son is James L. Ord, of Portland, Oregon.
